Subject: Request for Extension for Submission of Amended Mine Plan, Pelican Rock Products, Pelican Point Quarry, M/049/011, Utah County, Utah

Dear Mr. Heaton:

On July 22, 2004 the Division received your letter requesting an extension of time for the submission of the amended mine plan for the Pelican Rock Quarry. This extension would be necessary to complete the aerial mapping of the quarry and for Mt. Nebo Scientific to complete the amended plan.

The Division will grant the time extension to January 31, 2005 with the following conditions:

1. The maps generated by the aerial survey are to be furnished to Mt Nebo Scientific on August 23, 2004. We request that copies of these maps also be furnished to the Division at the same time.
2. We also request that Mt. Nebo be made available for inquiries as to the progress of the amended mine plan.
3. Pelican Rock does not begin mining in the recently acquired SITLA leases or begin mining in any new areas until this plan is completed.

We will continue to track the progress of this effort and look forward to receiving your final plan. If you have any questions, please contact me or Doug Jensen at (801) 538-5325 or (801) 525-5382 respectively.

Sincerely,

Daron Haddock
Permit Supervisor
Minerals Regulatory Program
